

from the forts, and when she reached the mine fields, which are a little below the forts, the boats were lowered and manned. A harvest of mines was quickly gathered, but not before this rapid-fire gun of the forts and occasionally an eight-inch gun had scored on the illuminated target at the closer range. The ship returned the fire, and her guns spluttered and flashed at a lively rate for several minutes. The fort observers could not identify the ship, but she was thought to be the converted gunboat Siler or the converted gunboat Hornet.

The condition for the defense were ideal. The moon shone brightly, and not a breath of air was stirring. As the ship floated leisurely down stream, leaving the zone of action at 10:15 o'clock.

The approach of the cruiser was observed first by the two scout boats of Fort Washington. At 10 o'clock the Admiral Dickins's torpedo boats rounded Marshall Point and made a dash for the mine fields. They were at once under the fire of the forts. The three torpedo boats were in line in close order by four Monitors and a cruiser. The action began at 11 o'clock and lasted for twenty-five minutes, during which time a record of battle was made that was most picturesque. The Monitors were all equipped with searchlights, which they use in opposition to those of the forts. As soon as the guns of the defense cut range on one ship, another ship would indicate her presence through the dense smoke by a flash and a bang. The torpedo-boat destroyers were all dark and they split spitefully at the lower searchlight of Fort Hunter and then with constant flashes from their sides they ran the channel for the whole fleet. The fleet of the two fortifications on their way to Washington. There was no break in the single file procession in the Potomac Channel for the whole fleet. The fleet of the two fortifications on their way to Washington. There was no break in the single file procession in the Potomac Channel for the whole fleet.

NAVY MAKES SECOND ATTACK ON FORTRESS

(Special to The Times-Dispatch.)
FORT MONROE, June 13—A second attack on Fort Monroe took place today shortly after 12 o'clock, and again resulted in a decided victory for the army, although it is only fair to say the odds were overwhelmingly in favor of the coast defense.

The battleship "Texas," closely followed by the "Hornet," steamed in and attempted to run the mine field. They each struck torpedoes twice, and as far as the engagement was concerned, are both supposed to be now resting in the quiet briny depths of Hampton Roads. Artillery officers are jubilant, for the question of the mine field protection was one of the most interesting features of the "exercises."

The Attack.
It was close upon midnight when far out beyond Bug Light a large white ship was discovered steaming rapidly towards the fort. In her wake could be seen a smaller companion of the same color. Straight towards the great guns of the batteries they raced until the range finders indicated 1,000 yards as the distance. The fort literally swarmed with men in khaki, while through glasses it was clearly seen that the decks, bridge and fighting tops of the Texas were alive with men of the navy. Like phantom ships they came through the mist. Not a shot was fired by the warships, and except for one terrific "boom" of the mortar battery the fort, too, was silent.

The mortars, so artillery officers say, would have proved fatal to both the Texas and the Hornet, but the problem was whether or not they would run the gauntlet of the mine field, and that was the game being played. As the battleship sped along suddenly a bell sounded, and then followed another. It was all over for the signal bell told that a commander had been struck and killed twice over the Texas was like McGuffey "at the bottom of the sea." The Hornet fared no better, and she, like the flag-ship, dipped her colors and ran in behind the Rip Taps.

General Wade Arrives.
General Wade, commander of the division of the Atlantic, arrived with his staff this morning, and on the afternoon of the 13th he was received by the Chamberlain Hotel. General Wade, although the ranking officer here, has no intention of assuming command, but will simply "observe" while Colonel Ramsey Douglas Potts will remain battle commander. He said this is said, because of the extraordinary nature of the case. Colonel Potts has displayed in preparing Fort Monroe and the Chesapeake District for the attack of the fleet.

General Story, chief of artillery, also reached the post this morning on the Virginia coast. He was met by the post, which he once commanded, during the progress of the maneuvers. All morning official calls were being read, and officers in the fullest of full dress made the post and reservation alive with bright colors. One weary officer observed that he had changed his uniform four times within two hours and that he preferred attack to official duty.

Attack Expected.
It is expected that either to-night or to-morrow night the combined fleet will attack the fort with the intention of discovering the effectiveness of the flotilla of torpedo boats under Commander John.

This phase of the exercises will be of the most intense interest to the artillery.

MEN & BOYS' OUTFITTERS

officers, for not only are the torpedo boats difficult to "pick up" with searchlights on account of their color and lowness in the water, but by reason of their high rate of speed they are not easily put out of commission by the shore batteries.

The game is something like this: At the fort watch is kept from a dozen "lookouts" day and night, while after dark powerful searchlights play over the bay, doing detective duty. Should a vessel come within range of the lights, she is immediately flooded with the rays of the "searchers," and if she proves to be of the enemy, a call to arms is instantly sounded in every camp and like magic batteries are manned and ready for action. Up in the range finding towers, stretching for a mile and a half along the coast, officers and men carefully calculate the distances and speed of the ships, and "change the data" to the officers on the ramparts above the commanding officer's quarters, from which place it is in turn "phoned" to the battery commander. As the warships come close in, firing as they approach, suddenly the great twelve-inch guns roar themselves above the parapet and throwing death and destruction from their muzzles, disappear again like magic. At six or seven miles the effectiveness of their fire is more than 80 per cent, and no ship is thought to be able to withstand complete the feat.

Not less dangerous than the twelve-inch guns are the powerful 1,000-pound mortars, whose work the whole military world is watching to-day, for, it is said, the navy has not been able yet to find any means of defense against them.

It is hardly possible that any warship other than a torpedo destroyer will accomplish the feat.

RUMORS OF HITCH IN PEACE PARLEY

(Continued From First Page.)
Today, could not have arrived at Tokio, considering the difference in time, until last midnight at the earliest.

Japan's terms continue to be matter for animated speculation. A well-informed diplomat, who says he knew Japan's terms before the battle of Mukden, considered them to have been very moderate, and believes that even now they will be found to be not unduly harsh. Private advices received from a Russian source at Shanghai say it is certain that Japan will demand the surrender of all ships interned in Eastern waters, which may be another item offsetting indemnity.

Papers supposed to have semi-official inspiration continue to speak dubiously of the results; but it is noticeable that the cheap and popular papers, like the Gazette, plainly advise the people to reconcile themselves to defeat and peace.

FREIGHT COLLISION.

Engineer is Dangerously Hurt.
Trial of Powell Case.

(Special to The Times-Dispatch.)
RALEIGH, N. C. June 13.—As a result of a rear-end collision between local freight No. 6 and vegetable train No. 8 on the second division of the Seaboard Air Line this morning a half dozen or more cars are smashed and the engine of No. 8 is badly injured, and E. C. Horton, white, fireman on the vegetable train, is at his home in this city dangerously injured. He jumped from the engine and fell on a pile of cross ties, injuring his left shoulder and hip. No other member of either crew was injured.

Nothing is known as to the cause of the accident as yet. Travel was delayed several hours. No. 6, round-bound fast mail for Richmond, being six hours late on account of the accident which occurred at Lake View, near Southern Pines. The caboose and a number of coal cars on No. 6 were smashed and the pilot knocked off of No. 8 engine.

The trial of J. B. Powell, of Norfolk, for the fraudulent use of the mails as "James and Powell," Raleigh, begun to-day in the United States Court, here being defended by I. W. Eason, of Norfolk; F. S. Spruill, of Lenoir, and Colonel J. C. Harris, Raleigh. All witnesses testify for the prosecution, the principal

ones being Postmaster C. T. Bailey, of Raleigh, and postoffice clerks, as to Powell's use of the mails.

The couple went to the St. James Hotel, less than a block from the railway station. Mr. Hunter explained the situation to one of the hotel clerks, and that gentleman kindly accompanied him to the marriage office. The license was procured in a few minutes. Rev. W. M. Ferguson was summoned to the hotel, and before 3 o'clock the twain were made one.

The couple will probably return to Richmond to-morrow.

Mr. Hunter is connected with the Merchants National Bank of Richmond, and very well known throughout the city. He is the son of Rev. Joshua Hunter.

The bride is the daughter of Mr. C. H. Potts, of Ashland. Mr. Potts was in Norfolk yesterday, and was very much surprised when told of the marriage of his daughter. Mr. Potts is treasurer of the Chesapeake and Ohio Railroad.

OUTBREAK IN PHILADELPHIA

Police Protect Councils While People Cry "Thieves" and "Crooks."

REPEAL BILLS ARE TAKEN UP

Select Councilman Placed Under Arrest—Work Stopped on Torresdale Boulevard.

(By Associated Press.)
PHILADELPHIA, Pa., June 13.—Amid the cry "thieves" and "crooks," and under the protection of a squad of police, the committee on street railways of City Councils to-day referred to the city solicitor for his opinion as to their legality four bills repealing ordinances granting street car companies the right to use one hundred and ten miles of street to lay tracks without the city's receiving any compensation for the franchises.

The repealers were introduced at the instance of Mayor Weaver, and action of the committee to-day is the first setback the Mayor has received since the inauguration of the reform movement, which began with the fight on the gas lease.

Another sensation in the political situation to-day was the arrest of Frank H. T. Hall, a councilman from the Thirtieth Ward, on the charge of violating his councilman's oath by being interested in city contracts. He was held in \$10,000 bail for a further hearing. He denies the charge.

Director of Public Works Acker to-day announced that the contract for the Torresdale boulevard, which is expected to cost several million dollars before it is completed. Work was stopped on the operation because it is alleged that the contractors are not lying up to the specifications in the matter of material for the building of the boulevard.

An echo of the gas lease fight came from Harrisburg to-day, when State Treasurer Mathews appointed Arthur R. H. Morrow, of this city, bond clerk in the State Treasury Department. Mr. Morrow was forced out of the position of assistant secretary of the Department of Supplies in the gas lease fight.

SHAM BATTLE.

The Greatest Crowd That Ever Attended V. P. I. Finals.
(Special to The Times-Dispatch.)
HARRISBURG, June 13.—The sham battle was the drawing card in the commencement programme at the V. P. I. to-day, and the occasion drew six or seven thousand visitors to the State Fairgrounds. The "Huckelberry," furnished the opportunity for this unusual influx of visitors.

In the presence of thousands of enthusiastic spectators, the Board of Visitors at 3 o'clock inspected the battalion, under the command of Colonel J. S. Johnson, the commandant of cadets. They looked for his success and that he believed things were coming his way.

Two New Charters.
The State Corporation Commission yesterday granted the following charters: The Walker-Hughes Market Corporation, Alexandria; John C. Walker, president; John A. Hatcher, vice-president; H. F. Woodard and C. F. Diggs, directors. Washington, D. C., capital, \$100,000; objects to buy and sell groceries and retail all kinds of market provisions and grocery supplies.

Ocean, V. F. and Pine Beach Railway Company, Norfolk; R. L. Page, president; Norfolk; B. W. Leck, vice-president; M. C. Elliott, secretary and treasurer; capital, \$25,000; objects to purchase, lease, construct and operate a railroad or railroads, to be used as a common carrier and conveyance of persons and property or both.

Mr. Wallace in Fulton.
The friends of Hon. Charles M. Wallace, Jr., one of the candidates for Commonwealth's Attorney, have arranged to have a meeting at Nelson's Hall, in Fulton, to-night.

Apollinaris

BEWARE OF SUBSTITUTIONS

To-Day is the Time

Time waits for no man. If you failed to start a savings account five years ago, or last year, that is your misfortune. You are just so much older to-day, with the corresponding decrease in the period during which you can reasonably expect to be an active earner. But it is never too late to mend. Save a little this year. The 3 per cent. compound interest we pay helps amazingly.

Use modern methods and get Time working for you instead of against you—every day one step nearer financial independence.

Begin now.

active, covered himself with glory, and his opponent, Lieutenant W. M. Mason, of Keyesville, presented his side of the question in a most admirable manner, winning generous applause. Both young gentlemen are splendid athletes, and are a credit to their society and college.

The marshal was B. H. Kyle, with Candata Owens, Bridges, Bean and Cassell, assistants.

The senior promenade was held from nine o'clock until three, with supper served shortly after midnight. The german was the most beautiful of all the commencement dances. Cadet Julius Lamb, of Williamsburg, led, with Miss Carole Martin, of Mobile, and more than fifty couples participated.

The annual banquet was held to-night, with illumination of campus, band concert and german.

Besides about twenty-five alumni on the grounds and numbers of former students, there are thirty-five visiting alumni. They are Judge W. M. Pierce, Christiansburg; Isaac Diggs, Richmond; H. T. Hall, Roanoke; E. Noel, Radford; C. Weissiger, of Atlanta, Ga.; J. W. Stull, Lenoir, Va.; J. A. Musgrave, Drewryville, Va.; C. G. Guindard, Columbia, S. C.; Professor H. F. Pierce, Long Shop, Va.; A. T. Eskridge, Pulaski city; R. T. Roan, Christiansburg; W. L. Pierce, Christiansburg; G. C. Miller and H. B. H. T. Hall, Roanoke, last night.

W. T. Tams, Scarborough, Va.; S. A. Oenshain, Christobal, Panama; Major T. L. Polmore, St. Joseph, Mo.; G. F. Baker, Buffalo, N. Y.; J. H. St. John, Va.; A. P. Eskridge, Elliston, Va.; A. H. Anderson, Atlanta, Ga.; J. A. B. Gibson, C. B. Keenfoot, Roanoke, Va.

COL. ANDERSON SPEAKS.
Will Have Two More Meetings Before Canvass Closes.
Colonel George Wayne Anderson spoke to a fairly good-sized audience at Powell's Hall to-night, and his address was well received.

Colonel Anderson will speak at Sanger Hall on Friday night and at Nelson's Hall on Saturday night, and he invites all other candidates, whether for Commonwealth's Attorney or for other positions, to attend his meetings, where they will be accorded time in which to speak.

Colonel Anderson said last night that he felt greatly encouraged at the outlook for his success and that he believed things were coming his way.

Two New Charters.
The State Corporation Commission yesterday granted the following charters: The Walker-Hughes Market Corporation, Alexandria; John C. Walker, president; John A. Hatcher, vice-president; H. F. Mr. Wallace in Fulton.
The friends of Hon. Charles M. Wallace, Jr., one of the candidates for Commonwealth's Attorney, have arranged to have a meeting at Nelson's Hall, in Fulton, to-night.

Candidates for all city offices, including those for Commonwealth's Attorney, are expected to be present and make addresses. A number of the city candidates have already accepted invitations to speak at the meeting, and it is expected that there will be a large audience, as this is practically the first meeting in Fulton during the city campaign.

The Dusch Will.
In the Chancery Court yesterday the second trial of the Dusch will case was being tried by Judge A. A. Telford, and again at 12:30. The march of the cadets from the dining hall to the auditorium took place at 10:45, after which the cadets addressed the assembly. The cadets of Richmond, before a large gathering, composed of alumni, students, the faculty, Board of Visitors, town people and friends.

Mr. Diggs spoke on the subject of "Useful Citizenship." His speech was a fine effort and made a most favorable impression. He declared that he had no noble sentiment and light shafts of humor that went straight to the mark. In opening, Mr. Diggs made happy allusions to the changes in the ownership of the city since his graduation in 1880. He said that there were less than a hundred students at that time, this year 728 had matriculated. He alluded to the "Loo," the highest type of the useful citizen. He said that only a few could achieve greatness, but that all could be useful citizens. He declared that he had no noble sentiment and light shafts of humor that went straight to the mark. In opening, Mr. Diggs made happy allusions to the changes in the ownership of the city since his graduation in 1880. He said that there were less than a hundred students at that time, this year 728 had matriculated. He alluded to the "Loo," the highest type of the useful citizen. He said that only a few could achieve greatness, but that all could be useful citizens. He declared that he had no noble sentiment and light shafts of humor that went straight to the mark. In opening, Mr. Diggs made happy allusions to the changes in the ownership of the city since his graduation in 1880.
